SENDER

1. Prepare the shipping container.
2. Remove the duplicate bar code label from under the protective foil and stick it onto the shipping documents.
3. Activate the **USRID-16W2** by pressing and holding the START button  until **REC**  changes from flashing to permanently on (5 seconds), then release the button, with a start delay of 1 hour.
4. Complete the card below in ball point pen.
5. Insert this card, with the activated device attached, into the shipping container.
6. Seal the shipping container.

Supplier name: _____

Date: _____ Time: _____
dd.mm.yyyy hh:mm

Vaccine PO number: _____

Vaccine: _____

RECEIVER: please turn the card!

RECEIVER

1. On arrival, remove the **USRID-16W2** from the shipping container immediately.
2. Press and hold the STOP button  until **STOPPED** changes from flashing to permanently on (5 seconds), then release the button. The **USRID-16W2** is now stopped.
3. Read the LCD display and follow the instructions as described below.

OK DISPLAY

Device is stopped.

The tick  shows that no alarms were recorded.

The trip length was 19 days and 18 hours.

If OK, use vaccines normally.

ALARM DISPLAY

Device is stopped.

The cross  shows an **ALARM** was recorded.

In this example, the alarm occurred at a temperature $\geq 30^{\circ}\text{C}$, indicated by the arrow .

If the **USRID-16W2** displays an alarm, please proceed according to the decision table below:

| Alarm temperature | What to do with vaccines: | |
|---------------------------|----------------------------|----------------------------|
| | OPV only | Other vaccines |
| $\geq 45^{\circ}\text{C}$ | Contact Procurement Agency | Contact Procurement Agency |
| $\geq 30^{\circ}\text{C}$ | Contact Procurement Agency | Contact Procurement Agency |
| $\geq 10^{\circ}\text{C}$ | Contact Procurement Agency | Accept |
